EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Specification:

- a. On page 1 in the fourth line under the heading "CROSS-REFERENCE TO RELATED APPLICATIONS", please insert --, now US 6,547,937-- after "January 3, 2000".

Statement of Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The instant invention is distinguished over the prior art of record by providing a reactor for electrochemically processing a microelectronic workpiece comprising a movable electrode assembly and a cleaning electrode. The movable electrode assembly is spaced apart from the workpiece and is movable toward and away from the cleaning electrode. While the prior art of record does teach three electrode systems comprising the workpiece, a plating electrode, and a removing electrode, the prior art neither teaches nor suggests the relationship between the features as claimed. Shinogi et al. (U.S. Pat. No. 5,344,539) teach an apparatus capable of plating and removing material, but the plating electrode is not movable in relation to the removing electrode.

Simpson et al. (U.S. Pat. No. 6,174,425) teach an apparatus having a cleaning electrode and plating electrode, but the electrodes do not move relative to one another as recited in the instant claims. Talieh et al. (U.S. Pat. No. 6,328,872) teach an apparatus wherein the workpiece moves relative to both the plating electrode and polishing electrode, the electrodes do not move relatively to one another as recited in the instant claims. The instant invention provides a means for cleaning the electrode assembly without affecting the workpiece and without the need to remove the electrode assembly from the reactor for cleaning.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian L. Mutschler whose telephone number is (571) 272-1341. The examiner can normally be reached on Monday-Friday from 7:30am to 4:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nam Nguyen can be reached on (571) 272-1342. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
